

Benvenuti nella Palestra Grande di Pompei !

Tanto tempo fa questo era uno spazio per i giovani .

Oggi qui c'è una mostra con oggetti trovati

nelle case , strade e giardini di Pompei .

La mostra è divisa in due parti :

in una parte puoi scoprire la storia

del vulcano Vesuvio e vedere i resti di piante

e animali antichi ;

nell' altra parte puoi vedere i calchi dei Pompeiani .

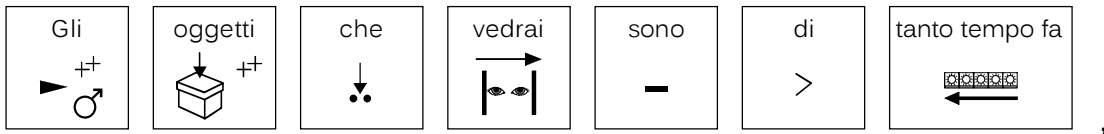

I Pompeiani sono le persone che abitavano nella città

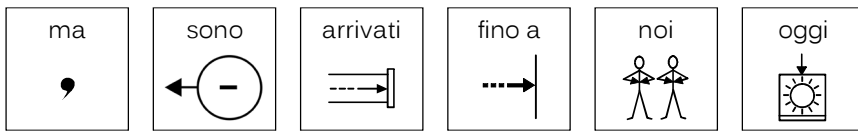

di Pompei

I calchi sono le impronte delle persone morte

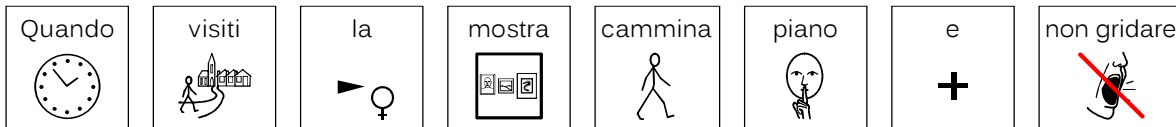

quando Pompei viene distrutta dal Vesuvio

,

.

.

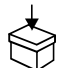

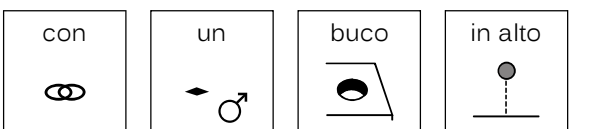

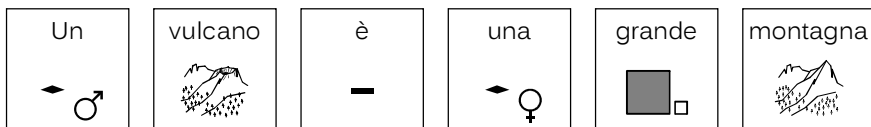

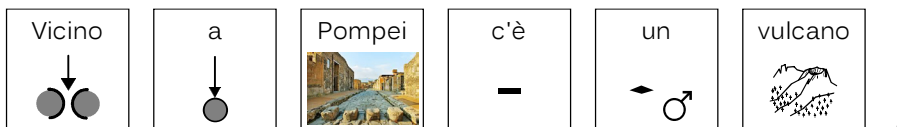

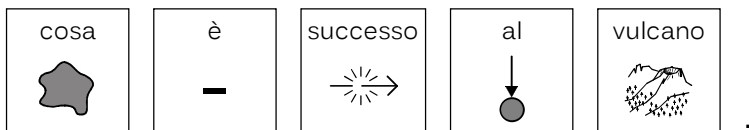

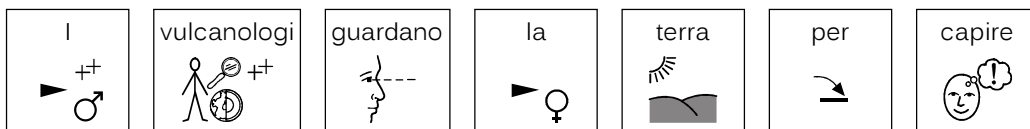

L'  ERUZIONE 

A  Pompei  lavorano  tante  persone  ++ che  studiano  la  storia antica 

Gli  ++ archeologi  ++ scavano  la  terra  per  scoprire  le  ++ case  ++ ,

le  ++ strade  ++ e  gli  ++ oggetti  ++ .

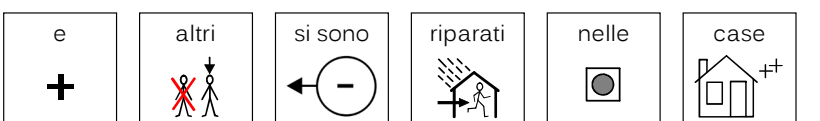

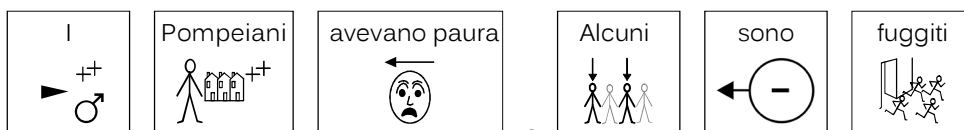

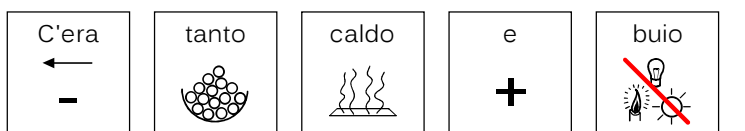

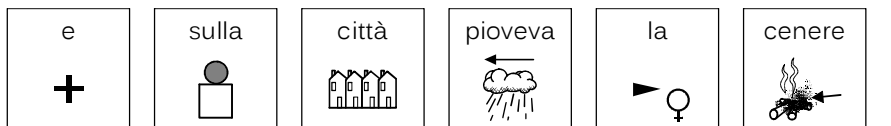

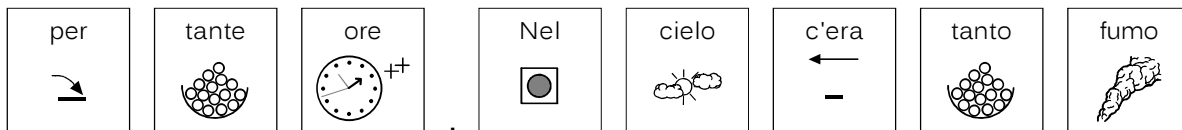

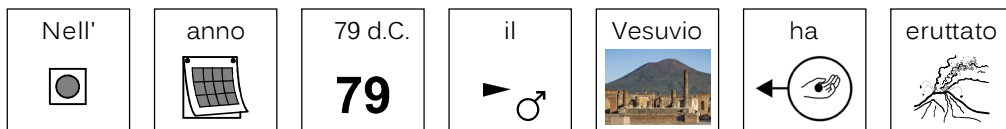

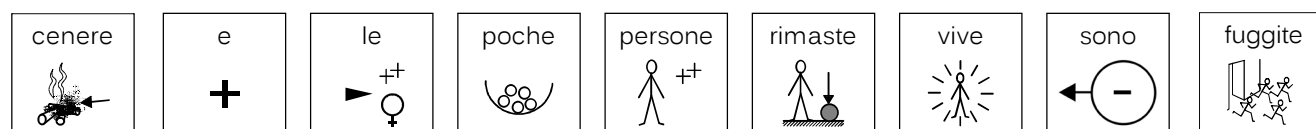

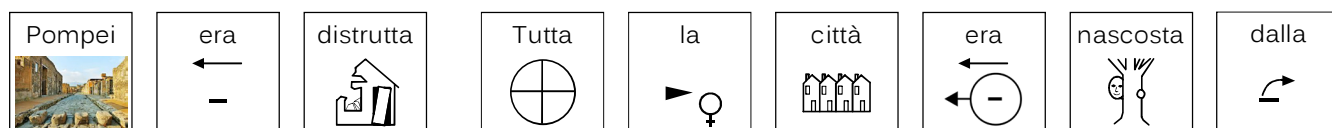

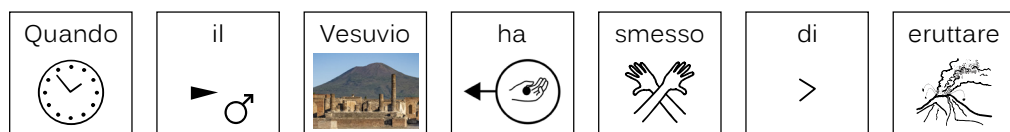

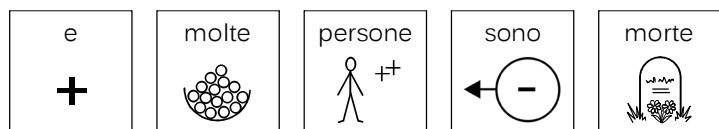

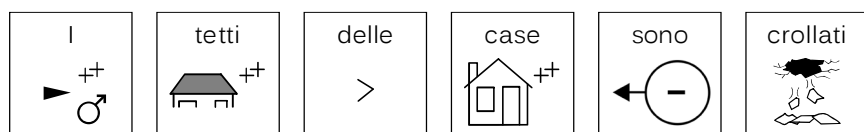

Dentro il vulcano ci sono pietre molto calde .

Quando il vulcano erutta le pietre escono dal buco

insieme alla cenere e al fumo .

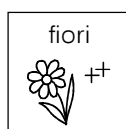

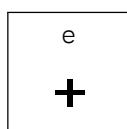

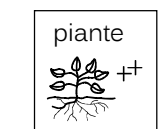

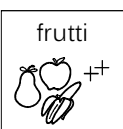

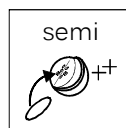

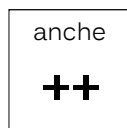

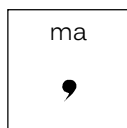

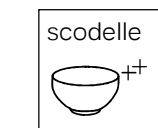

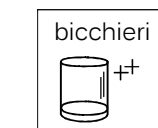

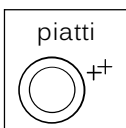

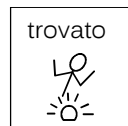

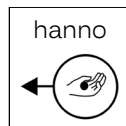

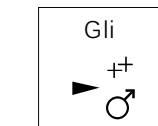

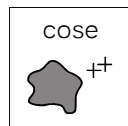

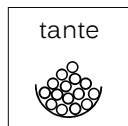

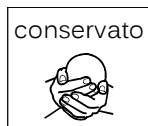

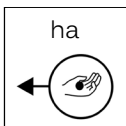

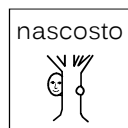

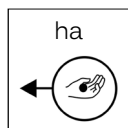

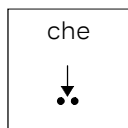

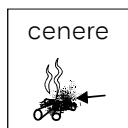

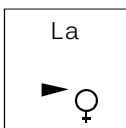

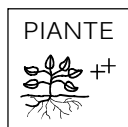

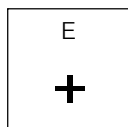

Nel tempo  
  
 il  
  
 vulcano  
  
 ha  
  
 eruttato  
  
 tante  
  
 altre  
  
 volte  

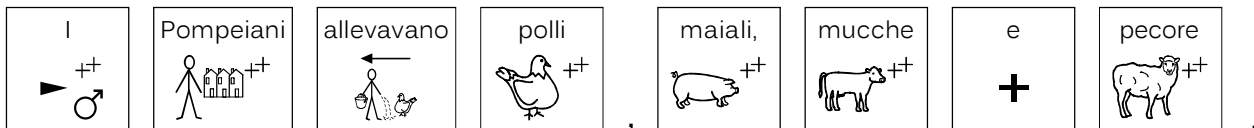

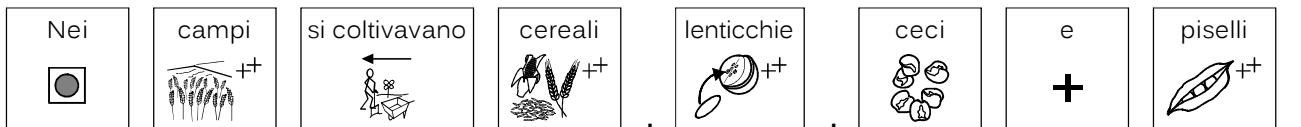

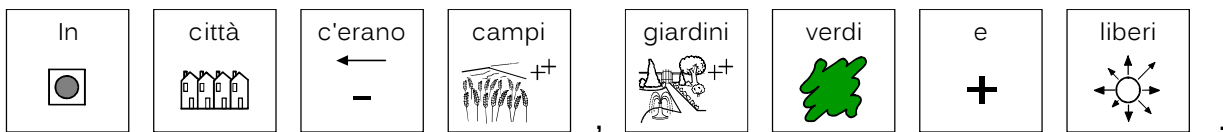

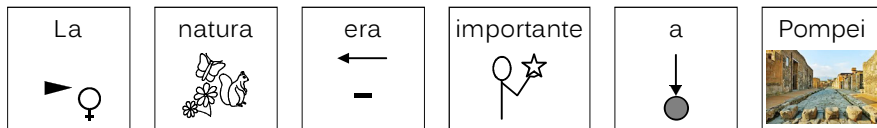

Oggi  
  
 il  
  
 Vesuvio  
  
 dorme  
  
 tranquillo  

ma  
  
 potrebbe  
  
 svegliarsi  
  
 ancora  
  
 in futuro  

Uccellini  ++ , cani  ++ e  tartarughe  ++ facevano  compagnia  agli  abitanti  .

Il  legno  degli  alberi  ++ si usava  per  costruire  case  ++

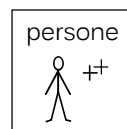

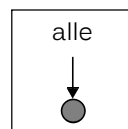

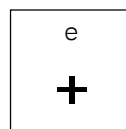

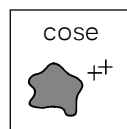

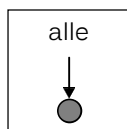

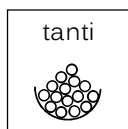

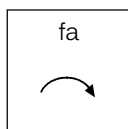

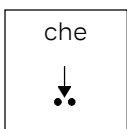

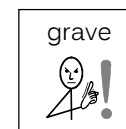

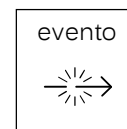

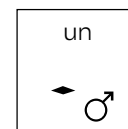

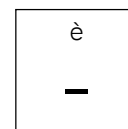

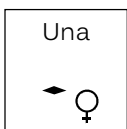

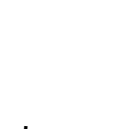

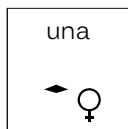

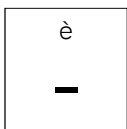

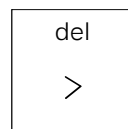

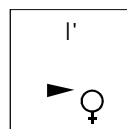

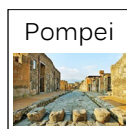

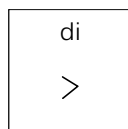

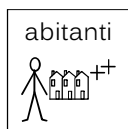

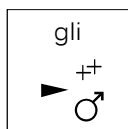

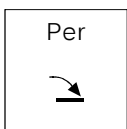

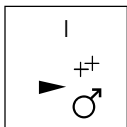

e  mobili  ++ .

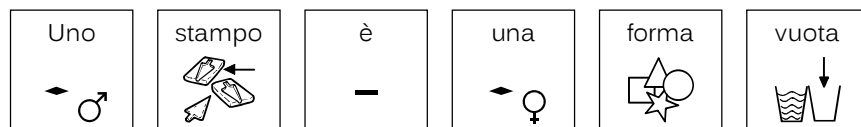

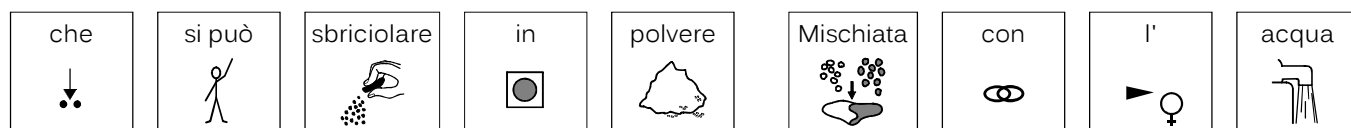

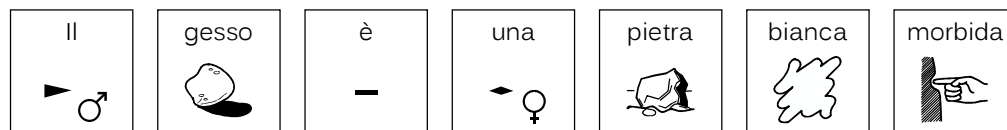

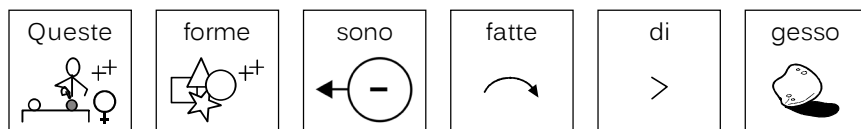

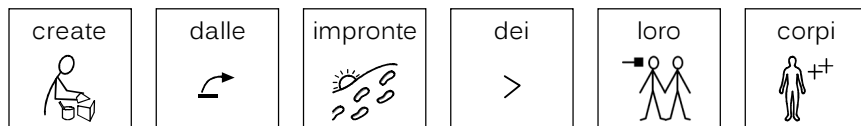

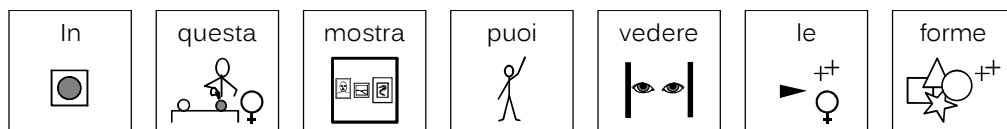

I  rami  ++ si intrecciavano  per  creare  cestini  ++ e  corde  ++ .

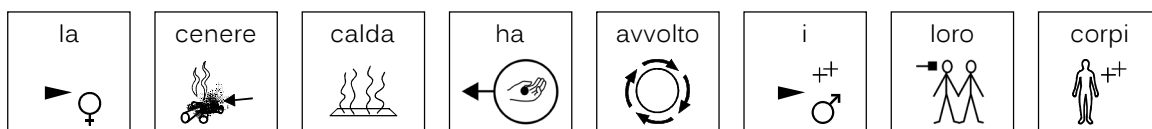

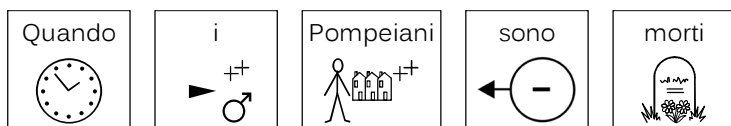

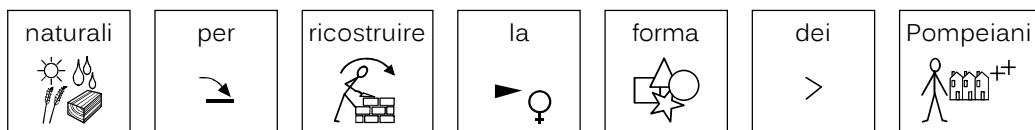

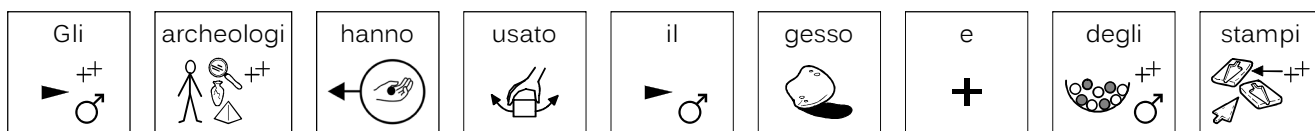

Gli  animali  e  le  ++ piante  ++ venivano  usati  .

anche  per  fare  i  ++ vestiti  ++ e  le  ++ stoffe  ++ .

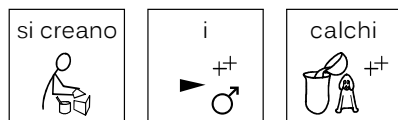

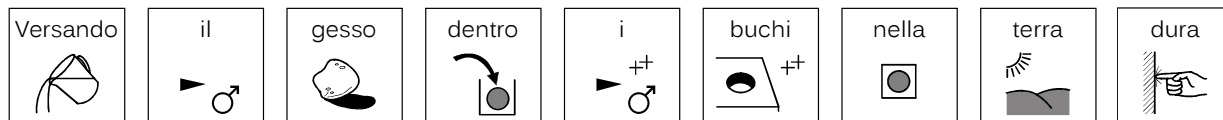

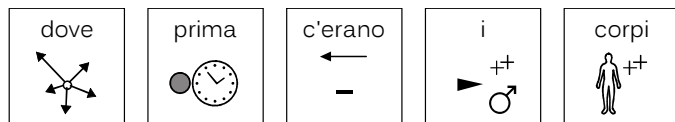

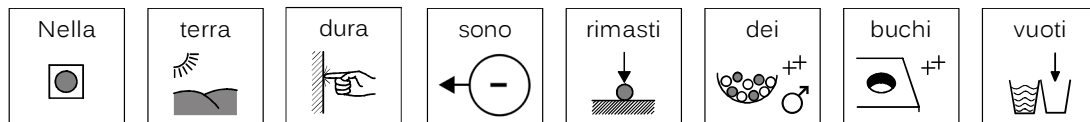

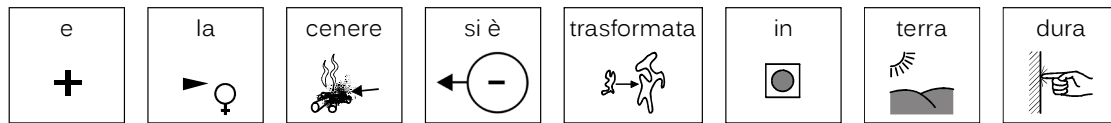

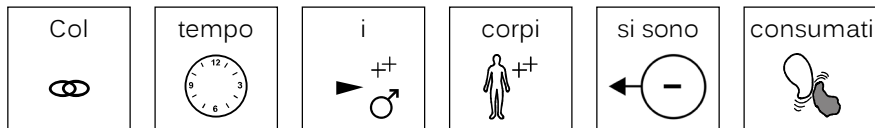

I calchi sono le forme create dalle impronte

delle persone di Pompei. Puoi osservare i loro vestiti,

la loro faccia e le loro posizioni.

Ci sono uomini, donne e bambini.
